

UHCS Abortion Referral Fact Sheet

If you are pregnant, or think you might be, UHCS can be a resource. Although at this time we refer students to local community clinics for medical and procedural abortion services, if you come in for an appointment, a UHCS clinician can speak with you about your options. We also encourage you to seek support from friends, family, and university or community resources.

Ultimately, you are the only one who can decide what is best for you.

Referrals

The following health centers provide services for individuals looking to end an existing pregnancy. Each location has been screened by Northeastern students to ensure the quality and reliability of their services.
